INTERNATIONAL KID

Eva White Photography

My name is Eva White and I am from Lithuania. In 2011 I moved to London and decided to do nothing else but only photography.

My photography journey started when I was 16 years old, when I discovered an old Russian camera Zenit in my grandparent's shed and I decided to figure out how to take pictures. I was inseparable with the camera for two whole years. Unfortunately, my family were not wealthy enough to send me to university, to study photography to pursue my ambition. So, I joined a completely different speciality causing me to forget about photography. My fascination and devotion arose after eight years, when my first daughter was born. My husband bought me a camera as a gift to start taking pictures of our new family which began my soon career as a photographer. Today, I am mom of two daughters, Liepa and Meta and my kids are my biggest inspiration both as a parent and as a photographer.

I am a natural light portrait photographer specializing in children, family and maternity photography. I aim to create dreamy and poetic images. The subject always has a deep connotation with nature. Sometimes, I am looking for unnatural tones and textures to blur the line between dreams and reality. When creating a picture, I usually have an idea based on colour. I create a world of hues and colour saturation that reflect my personal subjective reality. I can't imagine myself not in portrait photography. Even in the most beautiful, breath taking and astonishing scenery, someone must be there to tell the story to the viewers.

Anja McDonald Photography

Anja McDonald is an award-winning maternity, newborn and family photographer living in Western Australia.

She grew up in Scandinavia in a home full of color, creativity and design and art has always been a huge part of her life.

Today Anja lives in beautiful, sunny Australia with her husband and three children where she works both on location and in her studio. She is well known for her use of lighting and her editing style, and you can see how she has combined the scandinavian simplistic and minimalistic style with beautiful use of color.

In addition to being a photographer, she has a degree in finance and is also a makeup artist. These skills combined has enabled her to run a very successful business, which also sees her fully booked with both clients and workshops.
